About Me

I'm a Front End Developer passionate about crafting accessible, pixel-perfect user interfaces that balance thoughtful design with robust engineering. My strength lies in bridging the gap between design and development, bringing creative ideas to life with clean, efficient code while ensuring every product is performant, user-friendly, and scalable.

Skills

- Javascript & Typescript
- Frontend Development (React.js, Next.js, Vite, Webpack)
- Backend Development (Node.js, Express.js)
- State Management (Redux, Zustand, Recoil)
- UI Styling (SCSS, Tailwind, Styled Components, Material UI)
- Unit Testing (Vitest, Jest, React Testing Library)
- API Integration (REST, GraphQL)
- Geospatial Library (Google Maps, OpenLayers)
- Agile & Scrum Development

Professional Experience

2020 - 2025
FRONT END DEVELOPER - Telkom DBT

- Developed and maintained responsive web applications using React and Next.js, collaborating closely with backend teams to integrate RESTful API.
- Handled complex state management using Redux and Zustand, while building reusable UI components with Tailwind CSS based on Design System.
- Ensured code quality through unit testing with Vitest and React Testing Library, and actively participated in Agile Scrum ceremonies to support iterative product development.
